

Shakeup For High Officers

Declared to be Expected After Developments in Pentagon Uproar

By Douglas B. Cornell
WASHINGTON, Oct. 22—(AP)—The flaming feud in the armed forces over the grand strategy for war may result in firing Admiral Louis E. Denfeld as the top officer in the Navy.

In forecasting that, a high official in the Pentagon told a reporter today that other heads may be chopped off, too, but no wholesale purge is in sight.

"Don't say this will be a reprisal," he said. "It won't be. It will be an effort to get somebody on the team who will work with the team."

There was some guessing that Vice Admiral Forrest Sherman, commanding the sixth task fleet in the Mediterranean, might replace Denfeld. Fellow officers say Sherman is strong for unification.

Ironically, Denfeld has had a reputation for favoring unification, too. In the hearings on defense policies by the House armed services committee he emphasized that he is for it. But he went in as clean-up hitter for the admirals who are complaining unification as handled isn't working, that the Navy is getting a raw deal from policies putting overemphasis on the Air Force and long-range strategic bombing.

Denfeld said the Navy is denied a full partnership in the policy making.

Claim Denfeld Wrong

The generals and civilian chiefs of the Army and Air Force, and Secretary of Defense Johnson, assured the committee Denfeld is wrong, that there is no intention of putting its air arm or Marine force out of business.

Gen. Omar N. Bradley, chairman of the joint chief of staff, accused Denfeld of violating security by disclosing opinions of members of the joint chiefs.

Thus there is a deep chasm between the views of men at the top level of defense planning. And apparently it can be bridged only by changes.

The Pentagon official said they might come soon.

"There's no use in trying delaying tactics," he said. "The country needs reassurances that something is being done as a result of this explosion and that steps are being taken to bring about unity."

"The hearings have made it pretty clear that Denfeld and Bradley can't work together effectively in the future after all that has been said. I know the President won't let Bradley down."

The decision on Denfeld, he said, is up to Secretary of the Navy Matthews. It was Matthews who recommended Denfeld's reappointment as chief of naval operations only a couple of months ago, he said.

Two committee members, Reps. Short (R-Mo) and Sasser (D-Md), shook a cautioning finger against any general purge.

"If they think they can get unification by ruthlessly eliminating opposition," Short said, "they've got no other think coming. Everything can be worked out all right if there's not too much vindictiveness."

Must Get in Over \$3,000 to Reach Goal

Determination to Raise Full Amount of Chest Fund

Still more than \$3,000.00 away from the goal of \$20,300.00 in the Community Chest drive Sedalians are asked to bring all money on hand to the Chamber of Commerce office Monday that those in charge of the drive may know really how much more is needed. Anyone who has not yet contributed do so at once.

The full amount must be raised in some manner if the final results show the fund to be short because this year, as in other years, there is no surplus from the previous year to fall back on. It may be that if the last workers to turn in their reports and the new workers who were recruited to assist in the finishing up of the drive cannot bring in enough money to reach the quota that Sedalians will be called on to increase their contributions. "Even just a little bit more from everybody would put us over the top," one of the top workers asserted.

Negro Division Over Top
Dr. A. R. Maddox, chairman of the Negro division of the Community Chest fund, which exceeded its quota in the money raising campaign says:

"As chairman of the Negro division of the Community Chest Drive, I want to take this opportunity through the press, to thank all of the workers and contributors who made it possible for us to surpass our quota this year and I want all the workers to receive the credit for such a nice showing. I also want to thank the Rice's Hatchery, West End Market and the Stewart Market who made it possible for our kick off breakfast which was held at Hubbard school."

"Being a member of a community means that each one of us takes part in it and contributes to its life. The hand is a member of the body; it receives life from the body and contributes to its life. If the body is sick, the hand cannot do its work well; if the hand is crippled the body suffers, so your life is closely interwoven with the community of which you are a part. The best of life comes from a participation in its life. You can imagine yourself shut off from mankind like Robinson Crusoe, but what a narrow life you would lead. Citizenship means just this, membership in the community with its giving and receiving from the community's life; and good citizenship means performing well one's part as a member of the community."

"Citizenship carries with it certain privileges and certain duties. One of the greatest of these, which may be classed both as a privilege and as a duty, is cooperation. The interest of people in one another is the broadest and deepest basis of human association. Fellowship in all of the people all of the time is the very bread of life; it is the primal enjoyment and the final fulfillment. It necessarily finds outlet in all directions and includes all possible civic activities. In its socialized version it seeks to raise incidental neighborhood into conscious brotherhood. I feel that Sedalia, the Queen of the Prairies will not fall down this year in this great effort that is needed badly for the maintenance of all participating agencies."

Message From Governor
Thompson tonight made public a telegram he had received from Gov. Sid McMath of Arkansas. The governor said it was "imperative that negotiations be continued" and urged that the remaining cases in dispute be submitted to some neutral agency for settlement.

The last proposal calls for submission of the cases to the national mediation board for disposition, with the board's recommendation to be binding. The strike would terminate upon receipt from the board of advice that it will act in the matter.

Still Another Proposal on Ending Strike

Hearing Set for Monday on Issues By Special Master

ST. LOUIS, Oct. 22—(AP)—Union leaders tonight submitted another proposal to railroad officials in an effort to settle the 44-day-old Missouri Pacific strike.

R. E. Davidson, spokesman for the four striking unions, said the proposal would be given to Guy A. Thompson, trustee for the railroad, some time tomorrow. He declined to reveal details of the offer, but said: "We have reason to be highly optimistic."

Negotiations between the unions and the railroad remained stalemated over 93 individual claims. About 10 or 12 major issues covered the 93 claims, a union spokesman said.

A previous union proposal called for 18 cases to be submitted to the railroad adjustment board, about 38 be withdrawn conditionally, 17 be paid, six be withdrawn without prejudice and the remaining ones be settled in other ways.

Guy A. Thompson, railroad trustee, and other company officials, rejected that plan. He suggested all unsettled cases be referred to arbitration, to a board of three, to the railroad adjustment board, or to the national mediation board. Union officers rejected that plan.

Hearing Scheduled
A federal court special master, Jesse W. Barrett, is scheduled to open a hearing on issues in the dispute Monday. The hearing was postponed three times when it appeared a settlement of the strike was possible.

The railroad and the four striking brotherhoods were named defendants in a suit filed in circuit court today by two Negro porters-brakemen.

William King and Mike Harness asked for damages for themselves and other Negro porter-brakemen of \$5,000.00. Also they asked the court to enjoin the company and unions from entering into any agreement that would result in the discharge of Negroes.

Circuit Judge James F. Nangle ordered the unions and trustee Thompson to show cause why a temporary injunction should not be issued Tuesday afternoon.

In their petition King and Harness said they have been employed by the railroad 36 years. They stated the brotherhood of railroad trainmen bargains for all brakemen and switchmen but does not admit Negroes to membership. Negro trainmen earn \$75 a month less than white trainmen, the petition alleged.

In strike negotiations with the Missouri Pacific, the petition continued, the trainmen demanded one day's pay for white brakemen "who performed no service and who were not even on trains, for each day a 'train porter' (Negro) was employed on a passenger train for the more than seven years since May, 1942."

Effect of that claim would be to "force discharge of Negro head end passenger brakemen," the petition alleged. Otherwise it would cost the railroad about \$500,000 a year for service not required, the petition continued.

Warning Given To Witness
N. L. Bassin Before Federal Grand Jury Inquiry

KANSAS CITY, Oct. 22—(AP)—A federal grand jury witness was told of buying a tavern with money from "a trunk in his attic" today was called into court and warned he would be cited for contempt unless he answered the jury's questions.

It was the first open appearance of the jury which for several weeks had been investigating organized crime and gambling. Into the court of Federal Judge Richard M. Duncan the jury brought Nathan L. Bassin, former tavern owner and beer distributor.

M. H. Goldschtein, an assistant attorney general, told the court that Bassin was obstructing the business of the grand jury by giving replies that were "not consistent."

Bassin was before the jury three different times yesterday and at one time left the federal building with two justice department agents.

"Money From Trunk"
Goldschtein gave the court this account of its questioning of Bassin:

Bassin, bank employee receiving \$3,275 a year, bought half ownership in a tavern for \$5,500 in 1945. He told the jury he had obtained the money from "trunk in his attic." Later that year Bassin bought out his partner for \$5,800. Of that amount, he told the jury, \$2,000 came from the trunk in his attic.

Last year Bassin bought the beer distributing company of his brother-in-law, a firm having assets of \$75,000 and liabilities of \$45,000. The brother-in-law, Max Ducov, took \$25,000 out of the business that time and this year Bassin loaned him an additional \$16,000 from company funds.

"At the same time," Goldschtein told the court, "with all those thousands of dollars in the trunk in the attic, Bassin did not pay the small mortgage on his house."

The assistant attorney general said Bassin bought the house in 1936 at which time there was a \$2,700 mortgage and in 1946 Bassin still owed \$1,200.

Bassin insisted he had answered all questions truthfully and the best of his ability and that he had saved the money out of his salary over the year.

"I've always been a saving man," he declared.

Judge Duncan pointed out to the witness that he was required to answer the jury questions and then excused the group.

Bassin is one of nearly 200 witnesses subpoenaed by the jury.

Pet Pooch Gets Ride

In Armored Truck

PHILADELPHIA, Oct. 21.—(AP)—When an armored truck pulled up in front of the home of Mr. and Mrs. B. D. Conkey, the Conkeys' eyes popped.

And when their pet pooch, Tojo, climbed out, they really did a "double take."

The truck driver explained things. Seems Tojo, a little brown and black mongrel, wandered into the office of Geoffrey Smith, president of the Girard Trust Com-

pany.

By means of the dog's license, Smith traced the animal's owners and had Tojo delivered home in style.

In American Red Cross chapters all over the country, the fact that it is autumn means not only beautiful trees, cooler weather, sports, and all the other nice things that come in the fall, but primarily, Junior Red Cross enrollment. In October, the schools of this country take JRC as their principal interest and activity.

The Junior work is a 9-month year proposition, but for this particular month, more energy and interest than ever, are poured into the enrollment. The goal: Every boy and girl in the country. More specifically, every boy and girl in Sedalia and Pettis county. In a few weeks we hope to give you our report: 100%.

of 43,488,000 (M) just before the steel and coal strikes started.)

Many smaller firms, running out of steel or coal, have scheduled big cutbacks, some effective during the coming week. More railroad workers will join the jobless ranks at midnight Tuesday when passenger service is cut on some coal burning roads in compliance with an interstate commerce commission order. The automobile industry has announced drastic curtailments for next month. Steel fabricating plants are nearing the end of the line.

Secretary of Commerce Sawyer has estimated that if the steel strike runs to Dec. 1, it will force 5,000,000 workers into idleness and "seriously damage the nation's economy."

The National Coal Association reported that production from January 1 to October 8 this year was 341,633,000 tons. John D. Battle, executive vice president of the NCA, said Lewis' strikes were responsible for most of the 125 million ton drop below last year's production, although he conceded that a part of the decrease was attributable to market conditions.

Negotiations between Lewis' miners and Southern Coal operators toward a new contract were kept alive at least until next Tuesday. The sessions recessed for the weekend on a surprisingly bright note.

But northern and western operators, representing about two-thirds of the national production, stormed out of sessions at White Sulphur Springs, W. Va., breaking off talks with Lewis indefinitely. Lewis himself left the meetings two days before.

Agreement Sanctioned

In New York, fears of a strike of 65,000 east coast longshoremen evaporated. The union approved a two year agreement giving them a free five cents hourly pension package. In return the union agreed to smaller rigging gangs.

Four Persons Shot Fatally At Blair, Kas.

Bloody Climax to A Divorce Granted Last Wednesday

BLAIR, Kas., Oct. 22.—(P)—Four persons were fatally shot here tonight and another seriously wounded in what Doniphon county sheriff Frank Carter said was the bloody climax to a divorce action granted last Wednesday.

Carter said Galen Woods, about 25, a young ex-serviceman, shot three persons at a farm home near here, wounded a fourth and then shot and killed himself.

The sheriff identified the dead as John Sharp of Elwood, Kas., a brother-in-law of Woods' former wife, Mrs. John Sharp, and Oscar Tarter, about 60, the father of Woods' ex-wife. The shootings occurred at the Tarter home.

Another Wounded

Carter said Frank Freiburg of Bern, Kas., was shot in the stomach. He was taken to a hospital at St. Joseph, Mo., where his condition was described as critical.

Mrs. Galen Woods and her mother, Mrs. Oscar Tarter, escaped by running upstairs in the home, climbing out a window and jumping off the roof, Sheriff Carter said.

Neither was injured in the jump, but the officer said they were both so hysterical they were unable to make a statement.

Officers of the Kansas state highway patrol said the pictures they took at the scene were "so gory" they could not release them for publication.

Demand One Child

Sheriff Carter said Woods went to the Tarter home tonight to demand custody of one of his two children. Carter said Mrs. Woods refused to give up the child and the shootings followed.

U. S. Commissioner Maurice Pope last Wednesday represented Mrs. Woods when she won a divorce from her husband on a cross bill at Troy, Kas., authorities said. She was given custody of the two children and allowed \$80 a month.

Pope said tonight that Woods made threats to him and the witness at the time of the divorce proceedings.

Mr. and Mrs. Tarter and John Sharp all were witnesses in the action.

Wilbert Meyer Injured When Truck Overturns

Three brothers escaped serious injury when a 1945 Ford truck they were riding in overturned about 7:30 o'clock Saturday evening half-way between Emma and highway 40, near the Lafayette and Saline county line on a farm to market road.

One of the three brothers, Wilbert Meyer, 20, of Blackburn, rural route, was treated for an arm and hand injury he encountered. The oldest brother, Marvin of Lexington was driving the truck south when it hit loose gravel, causing the truck to head toward a ditch and overturn. The other rider was Lester of Emma.

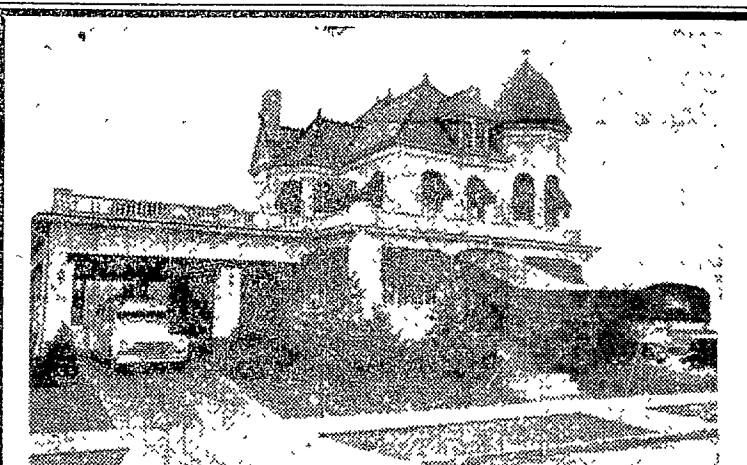

The James ambulance of Concordia brought all three to the Bothwell hospital. The highway patrol made an investigation at the accident scene, and Sgt. William Barton and Trooper Wayne Allman went to the hospital to make a routine check.

Hit Sheriff With Chair in Escape

MAYSVILLE, Mo., Oct. 22.—(P)—Sheriff Howard Hutton said three young Negro prisoners struck him with a chair in the county jail here tonight and two escaped. The third was captured in the court house.

Less than two hours later one of the other two surrendered.

The sheriff said the youths were Richard Morris, 16, Elwood Walker, 15, and Clarence Minor, 16. They were arrested Monday at Union Star, Mo., and were being held in connection with a cafe robbery there and an auto theft.

Sheriff Hutton gave this account of the escape.

He took Morris to a telephone so the latter could call his wife in Kansas City. When the sheriff returned Morris to the jail cell all three jumped on Hutton and Morris hit him with a chair.

Mrs. Hutton heard the ruckus and called for help. A number of men responded and caught Minor in the court house. Morris and Walker jumped out a downstairs restroom window and escaped in a car owned by Don Vestal.

One of the citizens fired a short at the fugitives.

Later Walker appeared at the farm home of Frank McCrea east of here and gave himself up.

Last February Sheriff Hutton, who took office in January, was struck in the head with a pickaxe by a man he was attempting to arrest. Seriously injured, he was off duty six months.

Slogan for this years celebration of Girl Scout Founder's Week, Oct. 30-Nov. 5, is "Come Along With Us—Girl Scouts of the U. S. A." This week is dedicated to the memory of Juliette Gordon Low, who founded the first troop in this country, in Savannah, Ga., in 1912.

Mrs. Low was born Oct. 31, 1860 and died Jan. 17, 1927. Founders Week always includes Mrs. Low's birthday anniversary.

The more than 600 local Girl Scouts will highlight during the week's celebration, the Seven Service Days, always set apart in special tribute to Mrs. Low. These seven days, each devoted to a major Girl Scout interest or activity, are: Girl Scout Sunday, go to the church of your choice in a group, Girl Scouts and leaders. In uniform if possible, but do attend in a group; Monday, Home-making Day; Tuesday, Citizenship Day; Wednesday, Health and Safety Day; Thursday, International Friendship Day; Friday, Arts and Crafts Day, and Saturday, Out-of-Doors Day.

A new World Pin has been developed, which symbolizes the international friendship ideal of Juliette Girdo Low. Mrs. Low wanted most of all, through Girl Scouting to provide a way for Girls all over the world to become friends. The world pin, which may be worn by any member of the Girl Scouts of the U. S. A., along with her regular Scout pin, has a gold world trefoil on a bright blue ground, representing the sun in a blue sky. On two of the trefoil leaves there are stars representing the Girl Scout promise and laws. There is also a line symbolizing the compass needle that guides. The flame-like base typifies the flame of the love of mankind. The pin was designed by a member of the Norwegian Girl Guide Association.

A Sweet Affair

Remember when it took only a taffy pull to furnish the young folks an evening's entertainment? Mother and Dad kept a watchful eye from the parlor. Nevertheless, many couples managed to get their hands stuck together. Yes, it was a sweet affair, beating the roadhouse a mile when it came to wholesome fun. Remember?

The Pin Oak Parent Teacher Association will hold the regular meeting Monday evening, October 24, at the school house beginning promptly at 7:30 o'clock. The Security Benefit Association will have a moving picture show.

Alec Templeton To Give Concert
Alec Templeton, pianist, composer and improviser, will be presented in concert October 27 in the assembly hall at Stephens college. The program, sponsored by the Music Service Guild, will begin at 8:15 p. m.

Welsh-born Templeton, who began his concert career in Chicago's Orchestra Hall in 1936, is a familiar figure on the American scene. Noted for gratifying every listener's taste, his programs are a balance of Debussy, Ravel and Rachmaninoff, and informal improvisations such as "Mr. Bach Goes to Town."

Templeton seems to be the personification of versatility, with his record as an American humorist and top-flight radio entertainer, a music scholar, a lecturer of musical form, and even as an accomplished hand with the bagpipes. He is an Honorary Pipe Major of the Seaforth Highlanders, a collector of records—everything from Bach to Be-bop—and an ardent gardener and radio fan.

His program at Stephens reflects this versatility.

400,000 People Paid More for Their Cars than a Cadillac Costs!

You will probably find it difficult to believe the statement which appears above as the headline for this message. But records indicate that it is true, nevertheless. The reason for this is found in a surprising fact: There are eight other motor car manufacturers who produce certain models which actually cost more than the lowest priced Cadillac and approximately four hundred thousand of these higher-priced models have been produced and sold in the post-war era.

Undoubtedly, a great many of the people who bought these cars did so because Cadillac cars were not available at the time—a situation now happily being remedied. But it is doubtless true that many owners of these higher-priced cars don't realize what they did. Cadillac has such a wonderful world-wide reputation for goodness and quality that many who can afford it mistakenly conclude it is beyond their means. So they pay the price of a Cadillac—and don't get a Cadillac.

We don't believe you would want that to happen to you. So we suggest that you come in and let us give you the actual delivered price here in this community for a Cadillac Sixty-one, equipped exactly as you want it. Let that be your economic yardstick as you select your car.

If you pay for a Cadillac, we think you will want to make sure that you get one.

Hold Husband In Death Of Wife

The woman, Mrs. Della Coleman, 24, died in an Ironton hospital early Friday.

Sheriff Allen said Coleman was under suspicion from the time his wife's body was found on state highway 21, about 10 miles north of Potosi. He was not arrested until today, the sheriff said, because there was some chance Mrs. Coleman might regain consciousness and tell what happened.

Mrs. Coleman died of a fractured skull, suffered, Sheriff Allen said, when Coleman struck her with his fists and threw her out of his car. The slugging followed a quarrel, the sheriff said. Coleman at first told officers he had left his wife in a tavern about a mile from where he body was found.

Missouri Blanked Iowa State

Tigers Scored 2 T. D. in First Period; 1 in Third and 2 in Fourth Quarter

By Knox Craig
AMES, Ia., Oct. 22.—(P)—Missouri scored the first two times it got the ball and went on to snap Iowa State's undefeated string with a loud crack, 32-0, in a Big Seven football game today. A near capacity crowd of 18,000 saw a powerful Missouri ground attack roll over and through Iowa State's line for two touchdowns in the first period, one in the third and two more in the fourth. The Cyclones were inside the Missouri 20 yard line four times in the first half and once in the third period but stalled each time. It was the first time in 23 consecutive games Iowa State had failed to score. It took the Tigers just five plays to go 70 yards for their first score, John Glorioso scampering 44 for the touchdown. Again on five plays, Missouri went 50 yards to score four minutes later, Dick Braznell punching over from the one foot mark. 66 Yard Drive Turned back after a 46-yard march opened the third period, the Tigers scored on their next chance on 11 running plays and a lateral in a 66-yard drive. Winford Carter crossed the goal from three yards out. Guard Ellis Cox fell on a rolling punt on the Iowa State 33 to set up Missouri's fourth touchdown. With Glibrioso, Braznell and Carter taking turns punching holes in the Cyclone line, Braznell went over from the one early in the final period. Runs of 21 yards by Junior Wren and 22 yards by Dave Ashley, both reserves, sparked Missouri's final touchdown march of 67 yards. Bob Henley went over from the one.

Cyclones Threatened
Iowa State lost the ball on downs on the Missouri seven after recovering a fumble on the 17 in the first period. Three times in the second the Cyclones threatened. End Dean Laun dropped one pass on the goal line and another on the Tiger five. After a third quarter Cyclone drive fized with a fumble on the Missouri 19 the Cyclones ran out of gas. An 80-yard run by Braznell behind some crunching blocks in the second period was nullified by a penalty. He started from his 18. The Tigers piled up 406 yards from rushing to a thin 96 for Iowa State.

Blade Comments
"We'll be alright with a few more games' out of the way," Blade said after Sunday's first match. "We didn't look good defensively, but we did show the fans that we can score. At that we had some tough luck" which might have gotten past Goalie Lorne Chabot, but the young fellow played a grand game after given the lead by Dick Butler late in the contest. Omaha will be the next Sunday night opponent on October 30 and Tulsa returns November 6 for a return match.

Patty Berg Won Open Golf Crown

FORT SMITH, Ark., Oct. 22.—(P)—Patty Berg, the veteran pro from Minneapolis, won her second straight Hardscrabble women open golf championship here today. She walloped Marlene Bauer, 15-year-old Los Angeles amateur, 6 and 4. Miss Berg played to near perfection, clipping eight strokes off women's par for the 32 holes it took her to close out her young foe. She made few mistakes. When she did get into trouble she got out with a spectacular next shot. It was one such recovery that broke Miss Bauer's resistance. The Los Angeles girl was just one down going into the 21st hole and it looked as though she would surely square the match when Miss Berg's second shot went into a trap. But Patty blasted out of the sand and into the cup to win the hole and start the runaway. Miss Bauer's putter, which had been her standby in earlier rounds, failed her today. She three-putted one green for the first time in the tournament. Miss Berg had held a two-hole advantage at the end of the first 18.

S-C Tigers Lead CEMO Conference

The Smith-Cotton Tiger footballers lead the Central Missouri Conference with three victories by blanking Kemper 27 to 0; trouncing Hannibal 41 to 6, and defeating Columbia 20 to 6. Second in the run for the Conference championship is Columbia with two victories pitted against one defeat. M.M.A. and Hannibal are tied for third place with M.M.A. having a record of one win and one loss and Hannibal two wins and two defeats. Kemper is in fourth place with one win and two losses, and Jefferson City trails with no victories and three losses.

The Tigers journey to Jefferson City this Friday night, at which time it will be home-coming week for the Jays. Then the Tigers have an open Friday and following on the next Friday, play M.M.A. on their homegrounds. The final game of the season will be played with North Kansas City, there. Coach Ralph Dow said the winner of the CEMO Conference will play another Conference team in the Show Me Bowl game. The Tigers won the bowl meet last season at Columbia by downing the Raytown eleven 20 to 0. The Tiger coach said Smith-Cotton gridders stand a good chance to win the Conference, but added, a lot of things can happen between now and when the season ends.

Mohawks Face Millers in Hockey Game

League Match Starts Tonight In Kansas City

KANSAS CITY, Oct. 22.—(Special)—Two scoring kings will be skating against each other in the United States Hockey League match between the Kansas City Mohawks and Minneapolis in the Arena, 3127 Wyandotte street, at 8:15 o'clock Sunday night, October 23. It will be the second home game of the season for the Mohawks.

The high scorers are R. Powell who won the scoring title last season with a total of 106 points and George Agar, Minneapolis wing, who tallied 112 two seasons ago. Agar took the scoring championship while a member of the Houston Huskies. Last season he was with the championship St. Paul Saints and was sold to the Millers. Rugged Pucksters Both of these pucksters have terrific shots which are difficult to stop. Agar is a bit faster on the blades than Powell, but the Kansas City skater has more finesse in outmaneuvering the rival goalies. Big Burly Harvey McKelton also is back with the Millers for net duty. He's a husky fellow and rugged when the going gets tough. Although the Mohawks dropped their opener, 7 to 6, to the Tulsa Oilers, Player-Coach Hank Blade is satisfied with the team's offensive, but now must concentrate on defense. Kansas City showed the fans some fancy goal-shooting in the home opener and there was a thrill every second of the tussle. Goalie Jim Henry, however, did not get much of an opportunity to display his ruggedness in front of the nets since the Mohawks made too many defensive mistakes. At that, Henry deserved a better fate.

Blade said after Sunday's first match. "We didn't look good defensively, but we did show the fans that we can score. At that we had some tough luck" which might have gotten past Goalie Lorne Chabot, but the young fellow played a grand game after given the lead by Dick Butler late in the contest. Omaha will be the next Sunday night opponent on October 30 and Tulsa returns November 6 for a return match.

Missouri Hard On Duck Hunters

PRATT, Kas., Oct. 22.—(P)—Kansas duck hunters must be sure they do not cross the center of the river or they might be nabbed by Missouri game wardens this fall. Dave Leahy, director of the Kansas Forestry, Fish and Game Department, said today that Missouri has refused to follow last year's rule under which hunters could shoot ducks from bank to bank. The Missouri commission has proposed that the center of the main channel be the dividing line between the state, Leahy said. He asserted that Missouri's proposal would be confusing to hunters of both states. Since there is no mutual agreement, Leahy said, Kansas hunters must consider the center line of the river as the boundary.

S-C Tigers Overpowered Kewpies 20-6

Game Was Played On Slick Field At Liberty Park

In the final home game of the season, the Smith-Cotton Tigers slashed through mud and water to earn their fifth straight victory by defeating the Columbia Kewpies, 20 to 6 in a CEMO Conference tilt at Liberty Park, Friday night.

The Tiger gridders dominated the meet by allowing the Kewpies to make only one first down during the entire game. The Tigers rolled up 217 yards rushing on the ground, while the Columbia footballers tallied only 40 yards in ground work. Water was standing along the south side of the field, and the players constantly fell in water puddles, but shook the dampness off to remain in the game until the final whistle was blown. The visiting squad and spectators were lined up on the south side with Sedalians. Not too large a crowd was present, but the spectators were ardent sportsmen, who came out in the wet, chilly night to support their teams. First Quarter The first score came in the first quarter, when Gene Dowdy, Tiger quarterback, tossed the pigskin a distance of ten yards to Myron Herrick, who was waiting for the ball in the left end zone. Bod Ray attempted to smash through center for the extra point, but lacked inches of making it good. In the second quarter, Dowdy and Herrick combined forces again to perfect a 20-yard pass. Herrick juggled the ball after he received it, but he held on to it for a score. Dale Whitfield, who seldom misses, kicked the extra point. The half time score was 13-0. In the third period, J. Williamson slipped through the line of scrimmage and the Tiger backfield, and carried the ball for a 40-yard touchdown. The extra point kick was blocked by the Tiger line, which excelled in their department that night. Final Score The last touchdown of the game came in the final quarter after Columbia punted from their 16-yard line and Delbert Bryant rushed behind scrimmage to pick the ball up and carry it over for a Tiger score. Whitfield was successful in kicking for the extra point. The expert kicker has kicked about 15 extra points for the season. Just before the game ended, Columbia punted to Smith-Cotton, and a Tiger runner was returning the ball when tackled and the ball was fumbled. Finally after a series of fumbles, the ball ended up behind the goal line with a Columbia player on the ball, which wasn't a score, but a touch-back for Columbia. The ball was brought to the 20-yard line, and seconds later the game ended. The Tigers meet their next foe, this Friday night when they journey to Jefferson City to battle it out with the Jays. Then the local team will have an off week, followed by a tilt with M.M.A.

Statistics:
Tiger statistics are 217 yards gained in rushing; 35 yards in the air, and earned 12 first downs. The team completed three passes and failed to connect with seven. They received their lowest penalties of the season which was 15 yards. They lost 33 yards behind the scrimmage line. The Kewpies totaled about 40 yards on the ground and lost 17 yards and incomplete two passes. The team only gained one first and ten during the meet, which was in the final half. Both teams made quite a number of fumbles, due to the slippery field and the slick ball. Coach Ralph "Stub" Dow said the Tigers played all right that night. Starting Line-up Sedalia Pos. Sport Scraps

By D. KELLY SCRUTON

STADIUM talk is in the air again—football season is over on the home front as far as Smith-Cotton is concerned. The Tigers journey out of town for the remainder of the season. This stadium talk should not stop as soon as Thanksgiving Day comes around and because the season will be over, but should continue on until present plans develop into a reality. A group of civic minded citizens have the "ball" and they have plans—goods plans if they are carried out, and knowing the group which is discussing the problem I am sure it will be carried out. Just when they will announce their proposed plans on how to raise the money and the type of stadium in mind isn't definite, but they are meeting from time to time and discussing them, and this factor alone indicates Sedalia will be among the up-to-date cities which have such stadiums. It has gone far enough, already discussions on the location and proposed field are a matter of real planning. One thing certain, it is going to be in Liberty Park and it is my understanding the "City Fathers" are willing. When the plans are announced, I hope, along with several hundred youngsters who play the game, and hope to play it, that everybody will get behind the project and see that it is a success.

THE Smith-Cotton Tigers, Friday night, blossomed out in twenty-four new sideline hoods—presented to the team by the "S-C" Club—at an appropriate time. The hoods proved well worth the cost and those boys sitting on the sidelines appreciated them far more than the members of the "S-C" Club really realized. As a player was substituted and the player coming off the gridiron soaking wet had an opportunity to get one of the warm coats and sit on the sideline in more comfort than any Tiger player in previous years. It is the first time the Smith-Cotton team has been equipped with such hoods. One year they had some which were short coat length and didn't do too much in keeping the boys warm. This new equipment gives the team a real "Varsity Look." They are long coats with large hoods to go over their heads which not only protects the player from winds but from rain as well. They are gold in color with black lettering on the backs "Smith-Cotton" and a number beneath. They are something the team has needed for a long, long time. Coach Dow said. He also asserted the boys as well as himself appreciate the gift of the "S-C" Club to the Tigers.

HAROLD O. MURRAY, son of Mr. and Mrs. J. R. Murray, 434 East Saline street is making a name for himself in the army not only as a soldier but also as a boxer. He has been recently promoted to First Sergeant and is stationed at Camp Carson, Colorado. Recently during a sports activity program, Harold fought in the boxing tournament and won a decision over his opponent. His picture was carried in the Camp newspaper. Harold started his boxing career when just a youngster in the Golden Gloves which at the time were sponsored in Sedalia by this newspaper.

Southern Cal Virtually Knocks Oregon from Bowl
LOS ANGELES, Oct. 22.—(P)—Southern California's Trojans rubbed Oregon virtually out of the Rose Bowl picture today by a topheavy 40 to 13 score in a game that was bewildering in its charging aspects. A crowd of 47,098 turned out for what presumably was a do or die contest for both Pacific Coast Conference teams as far as the Pasadena bowl game is concerned. The outcome left USC with one lone defeat in conference play, Oregon two.

California Wins Lap Toward The Rose Bowl
BERKELEY, Calif., Oct. 22.—(P)—California's hard-hitting Bears reeled off another lap in their drive toward the Rose Bowl with a 21 to 7 football victory today over Washington's fighting but outplayed huskies. The spirited contest saw the undefeated, untied Bears of Coach Lynn Waldorf run up a 21-0 lead over Washington as they turned into the final quarter. The northwesterners put together a final smashing thrust good for 76 yards to break into the point-scoring column. A crowd estimated at 40,000 watched California maintain its unblemished record.

Tiger B Team Defeated Owls 18-0, Saturday

Sedalia Freshman Eight-Graders Lose To Marshall 21 to 14

The Smith-Cotton "B" team defeated the Marshall Owls "B" team Saturday morning at Liberty Park, 18 to 0. The Tigers rolled to two touchdowns in the first half, and one in the fourth period. In the first quarter Sedalia won the toss and elected to receive. The Owls kicked off to the Tigers who fumbled on their own ten, where the Owls recovered. Sedalia then put up a stiff defense and held Marshall. Sedalia started a long drive which Marshall stopped on their own five-yard line. On the first play Marshall fumbled, and Sedalia recovered. From there Burton scored for the Tigers in two plays. Sedalia missed the extra point. After the kick-off Marshall completed a long pass to the Sedalia 30 as the quarter ended.

Second Quarter
The first play in the second period found Marshall fumbling with Sedalia recovering. From there the Tigers started their second touchdown drive. The drive ended when Burton went over for his second score from the one-foot line. The Tigers missed the extra point again. Sedalia kicked off to the Owls as the half ended. In the third quarter, Sedalia kicked off to Marshall who failed to make a first and ten. After this the reserves came in to replace the first team. The subs played well and the third quarter saw the ball seessaw back and fourth with neither team scoring. The quarter ended with Marshall in possession of the ball on the Sedalia 30.

Last Touchdown Drive
The Tigers held and took over on their own 25. From there they started their last touchdown drive. The Tigers swept down field using short passes and quick opening plays. The drive ended when "Bill" Arnold scored from the five. Again the Tigers failed to take advantage of the extra point. Sedalia then sent in its "subs" to finish the game. The game ended with Marshall in possession of the ball at midfield. While the "B" team was playing at the park the Marshall freshman eighth grade team beat the S-C freshman eighth grade team 21 to 14. The S-C boys scored in the first and second periods. Dick Dillon scored the first touchdown and passed to Buso for the second. The Owls tallied once in the first quarter and twice in the last. On the last play of the game Marshall completed a flat pass and the end ran 60 yards for a touchdown to break a 14 to 14 deadlock. Coach Dow ran the "B" team and "Jim" Ball coached the freshman. The "B" team plays their next game Tuesday, Nov. 2, against the Windsor "A" team, at Windsor.

It Was a Rout
Quickly, Oklahoma cashed in the break. Lindell Pearson swept end to the three on the third play. Then he punched center for the game's first touchdown and a 7 to 0 quarter lead. After that it was a rout. In the second period the terrific Oklahoma attack brought touchdown marches of 72 and 49 yards. George Thomas scored from a foot out and Darrell Royal passed 15 yards to Ken Tipps for the scores. Tipps gave Oklahoma a 21 to 0 half time lead with three conversions. Through the second half the Oklahoma's just kept on rolling—regulars and subs alike. They got two third period scores and two more in the fourth. Just the same, most of the crowd stayed to the last two minutes to watch the brilliant Oklahoma backs ramble. Except for a brief period early in the game, the fast charging Oklahoma line simply smashed Nebraska's offensive efforts to bits. In the third period, for instance, Nebraska lost 25 yards in three plays. Time and again Nebraska passers were smothered before they could toss the ball. Nebraska gained 83 yards rushing and lost 79, a net of just four yards. Oklahoma had 436 yards rushing.

Tourney Starts Here July 14th

President Ray Dumont said that a minimum of 12 district tournaments will be established by Kurash throughout the state with district champions and leaders of July 1 standing in affiliated NBC leagues assured entrance in the state championship 32-team bracket. A minimum cash award of \$1,000 will be awarded the Missouri champions in addition to competing further in the program to decide the 16th annual National championship at Wichita, Aug. 18 to 31. Holcomb Cardinals are the defending state champions, having finished in a tie for 11th place in the 1949 national non-pro ratings by the outcome of their ranking in recent National tournament at Wichita.

Kansas Team Stunned the Aggies 55-14
Even A Guard And Tackle Scored For The Underdogs
STILLWATER, Okla., Oct. 22.—(P)—It was a long afternoon for the favored Oklahoma Aggies—they were astounded and pounded by Kansas 55-14 here today. Even a guard and a tackle scored for the underdog Kansas before a stunned homecoming crowd of 26,000. Rebounding after a 48-26 loss to Oklahoma last week, Kansas displayed an amazing defense game and coupled it with passing to score in every period. The victory was the fourth straight for Kansas over the Aggies and its biggest score since beating Kansas State 55-0 in 1947. The game was billed as an aerial duel, and it was just that as Kansas' Dick Gilman and Jerry Bogue pitched their team to victory and Jackie Hartman vainly attempted to throw for the Aggies but received no support from a fading line. The licking was the worst for the Aggies since beaten by Oklahoma 73-12 the last game of the 1946 season. The Aggies made their first touchdown on a two-yard plunge by Arlen McNeil after a 69-yard drive in the second quarter. In the fourth quarter Ed Roof hit from the one after a 74-yard drive. Hartman made both extra points. Kansas' eight touchdowns were all made by different men. Guard Scores Kansas Guard Carl Ellis scored on an 81-yard trek in the second quarter after snatching an Aggie fumble out of the air. Minutes later Bob Talkington did the same thing for 13 yards. Bill Rinehart kicked seven out of eight extra points. With less than six minutes gone in the game, Bud French went through right tackle from the 34 to score before the first quarter ended, Bogue pegged to Lynn Smith 39 yards to score. In the second quarter, Bogue threw to Bill Schaake for a 22-yard touchdown pass. The score at the half was 34-7. In the third period Gilman passed 28 yards to Schaake who held the ball on the one foot line after three Aggie men touched it. Then Wade Stinson plunged over. Willie Modrcin ran over right guard to score from the eighth in the third quarter. Henry Lamping ended the scoring with a nine yard plunge for Kansas drove 70 yards. Gilman completed 10 out of 20 passes for 191 yards while Hartman hit 22 out of 33 for 224 yards.

Tag Team Match Here This Week

Wednesday's Wrestling Matches (In The Sedalia Armory)
Feature Match (a tag team contest)—Jimmy Coffield, 228, Kansas City, and Ronnie Etchison, 228, St. Joseph, Mo., vs. Babe Zaharias, 245, Colorado Springs, Colo., and Jack Suzek, 233, Chicago. Best two out of three falls, or a 90-minute time limit.
Special Match—Coffield (captain of Etchison-Coffield team) vs. Zaharis (captain of Suzek-Zaharis team). One fall to a finish.
Semi-Final Match—Walter Siros, 230, Montreal, Canada, vs. Danny Fenelon, 222, Dubuque, Iowa. Best two out of three falls, or a 45-minute time limit.
First match Wednesday starts at 8 p.m.
Auspices of the American Legion Pearl Chrissy, matchmaker.

A tag team match will feature Wednesday night's American Legion wrestling card in the Sedalia Armory. But there will be an added feature prior to the tag contest that is certain to provide considerable action. Babe Zaharias and Jimmy Coffield, who will captain their respective teams, have been at odds for the past two months. They became embroiled in a brutal match in Atlanta late last August. Coffield suffered a neck injury and was out of action for several weeks. Coffield vowed revenge. Now Coffield will get his chance to even the score. Prior to the start of the tag match, Coffield and Zaharias will meet in a showdown battle, representing the two teams. The winning captain in this one fall to a finish match will gain one fall for his team. A Head Start In other words the tag team match will start off with one team having a fall to its credit. Coffield asked to have Ronnie Etchison as his partner. Zaharis selected Jack Suzek, a rougher of the first order. The tag team match will go the best two out of three falls, with a 90-minute time limit. If Captain Zaharias loses the one fall match to Coffield, his teammate and himself will be forced to take two straight falls during the tag match if they hope to win. This same situation will hold true for the Etchison-Coffield team if Coffield loses the grudge match to Zaharias. A special match, slated for two out of three falls, will be waged between Walter Siros, the French-Canadian mat veteran, and Danny Fenelon, the scientific-styled Iowan.

Colorado Beat Utah State 20-7

LOGAN, Utah, Oct. 22.—(P)—Three long touchdown jaunts gave Colorado University a 20 to 7 non-conference football victory over Utah State Agricultural college today. A crowd of 7,000 watched. Halfback Gerald Appuzo scored two of them—on runs of 35 and 27 yards—and halfback Malcom Miller tallied the other, driving 25 yards on a reverse around his own right end. Utah State scored in the second quarter after a scoreless first period. The drive went from midfield and ended with quarterback John Caputo's pass to halfback Ralph Roylance, good for four yards and a touchdown. That was the only threatening thrust in the first half, as the visiting Golden Buffaloes lacked fire without their sparkplug, Harry Narcisian, benched with injuries. But two minutes after the intermission Colorado had scored its first counter. Arlie Berry's punt

prising 11 counties, held its an-
nual meeting in Kansas City on
October 17, at the President hotel.

the largest in the state, of which
Mrs. Henry Eager is president,
was the hostess club. Mrs. H. H.
Halvorson and Mrs. A. G. Sar-
ancy, both past presidents, were
the committee in charge of the
arrangements.

The meeting opened at 9:30
o'clock in the morning with Mrs.
Eager in charge after which she
presented Mrs. Frank S. Leach,
of this city, regional director, who
presided over the sessions the
remainder of the day.

The morning session was given
over to business and the reports

A special guest at the meeting
was Mrs. T. G. Harris, of Cape
Girardeau, president of the Mis-
souri Federation of Garden clubs.

Fourteen New Clubs

Mrs. H. H. Halvorson, assistant
regional director, presented a new
club to the region, the Spring
Branch Garden club. This makes
14 new clubs during Mrs. Leach's
administration. There are now 23
clubs in the region with 1,100
members.

Herman Mohr, a business man
and a member of the garden club
in Kansas City, gave several mus-
ical numbers both vocal and in-
strumental.

At the noon hour guests were
invited to the Aztec dining room
of the hotel and 132 guests were
seated at tables on which were
unique arrangements of green
grapes and white roses. Favors
at each place were named variety
of iris rhizomes in telephone
wrappers, a note book flowers
with stems in varied-colored ce-
lephone. These were made in Se-
dalia by Alice Rissler and Bobbie
Dale. Corsages were given the
guests at the speakers table by
the Kansas City club.

Singing was led by Mrs. Yan-
cey, of Sedalia and Mrs. Mohr,
of Kansas with Mrs. L. V. Sorg,
of Kansas City, at the piano.

Reports Given

The afternoon session in the
ball room of the hotel was opened
with the introduction of Mrs.
Harris, state president, who gave
a detailed report of her visit to
the Portland National meeting
and other national meetings. She
told of the national state and
regional activities and of the great
work they were doing. Mrs.
Harris spoke especially of the
national project of the Blue Star
Memorial parks that are being
established along the highways
both east and west and north
and south over the nation. Pic-
tures were shown of the bronze
tablet and the park near Sedalia,
the first to be established in Mis-
souri with a highway marker.

Mrs. Herbert Seifert is state
chairman for this project, but
was unable to attend the met-
ing. A report of the Council of
Sedalia Garden Clubs was given
by Mrs. J. C. Saunders and Mrs.
Leach presented Mrs. Oscar De-
Wolf, the new president of the
club.

A quartet composed of mem-
bers of the Kansas City Garden
club sang "Lovely Iris" the words
and music written by Jessie Wil-
son Townner, of Kansas City. Iris
is the Kansas City Club flower.

A report was given by Mrs. Karl
Wimer, of La Monte, chairman of
the resolutions committee and then
thanked Mrs. Eager and the mem-
bers of the Kansas City Garden
club for their hospitality.

Find Body of
A Wild Hog

A decomposed body of a wild
hog was found on the Dorsey
Adams farm about four miles
east of Houstonia.

About 100 people viewed the
animal, according to L. F. Grey,
a farmer of Houstonia.
This was reported to the High-
way patrol, who called an ex-
pert from the niversity of Mis-
souri, to come to the farm Sun-
day. This man said the remains
were a carcass of a wild Ar-
kansas hog, many of which he
had seen in Arkansas.

The two boys who found the
hog described it as weighing
about 300 pounds and having
very long hair and said it was
very ugly.

stration and for her state fair ac-
tivities.

Mrs. Harris, state president, in-
stalled the officers as the closing
event.

A large delegation from the Se-
dalia Garden clubs attended the
convention. Mrs. Fred Kueck was
in charge of transportation.

Proposed School
District No. 7

The enlarged school district
drawn up as proposed district
R-7 by the Pettis County Board
of Education compromises the ex-
isting school districts of Elm
Branch, Swisher, Hopedale, Maple
Grove, Bryson, and Pleasant
View. This will be an elementary
school district. Most of the high
school pupils attended Windsor
high school, although some are
enrolled at Green Ridge high
school.

The total assessed valuation of
this proposed district is \$994,390.
With a resident elementary en-
rollment of 68, and a high school
enrollment of 31, the district
would have an assessed valuation
of approximately \$9,943 per
child. Valuations of the separate
districts vary from \$131,750 to
\$216,710, and the present levies
range from 65c to \$1.00.

The resident enrollments of
the individual schools range from
seven to seventeen pupils, with
only one school having an enroll-
ment of more than fifteen pupils.
Voting in the proposed district
will be held at Swisher School
on Tuesday, November 1st. Polls
will be open from 6 a. m. to 7
p. m.

Huge Climb in
America's Debts

WASHINGTON, Oct. 22.—(P)—
America's total debt—private and
public—stood at a record \$429,
400,000,000 level at the start of
this year after a 12-month climb
of \$14,000,000,000, the Commerce
department reported today.

Averaged out, that would be
over \$2,875 indebtedness for each
man, woman and child in the
country.

Greatest debtors were the gov-
ernments—federal, state and local
—who were in the hole \$232,700,
000,000. Private debt, \$196,700,
000,000, was split in this fashion:
Corporation \$112,100,000,000, in-
dividuals and unincorporated en-
terprises \$84,600,000,000.

The federal government alone
owed over half the total Ameri-
can debt: \$216,500,000,000 on a
net basis, which leaves out bil-
lions of guarantees that count in
gross debt figures.

During 1948, when other gov-
ernments, corporations and in-
dividuals as a whole were run-
ning up their debt totals, the fed-
eral government made a \$6,800,-
000,000 reduction the department
said.

Now the government's debt is
growing again as it overspends
its income.

Most rapid expansion in pri-
vate debt, said the department,
was a 52 per cent climb for farm
production loans, mostly provided
by the government in connection
with its price support program.
Farm mortgage debt totaled, \$5,-
100,000,000 and other farm debt
\$5,400,000,000 at the start of this
year.

Couple Found
Shot to Death

KANSAS CITY, Oct. 22.—(P)—
A man and a woman were found
short to death today in a small
apartment, victims of what po-
lice termed a murder and a suc-
cide.

In the apartment police found
a five-year-old girl, presumably
the woman's daughter, reading a
comic book and apparently un-
aware of the slayings which had
taken place 12 hours earlier.

Police tentatively identified the
man as Kenneth Fleet Conklin,
45, and the woman as Mrs. C. E.
Nichols, 24. They said they had
uncovered no motive for the
shootings.

The bodies of both victims,
fully dressed, were found on the
living room floor by a maid. Both
had been shot in the head. A .38
calibre revolver was found near
the man's body.

The register at the apartment
hotel listed the occupants of the
apartment as Mr. and Mrs. John
Kenney. A birth certificate found
among the woman's effects, listed
Mrs. Charles Edward Nichols and
the name of her child as Judy
Mae Nichols. Two bills from de-
partment stores bore the name of
Mrs. Eva Menasco. In a cosmetics
case police found about 100 foot-
ball parlay cards.

Concern Over
Human Rights

Violations by
Satellites of
Soviet Charged

By A. I. Goldberg
NEW YORK, Oct. 22.—(P)—The
United Nations Assembly agreed
today with western accusations
that three Russian satellites in
Eastern Europe are suppressing
human rights and freedoms. It
asked the international court of
justice for advice.

The Assembly vote was 47 to
5.

Over bitter Russian bloc ob-
jections, the Assembly chose to ask
the international court for a ruling
whether Bulgaria, Romania
and Hungary must comply with
peace treaties in settling the ques-
tion.

The Cominform bloc fought to
keep the charges out of the United
Nations ever since the questions
first were raised after trials of
Josef Cardinal Mindszenty in
Budapest and of religious leaders
in Bulgaria early this year.

But it lost after a last-minute
attack today by the Soviet Ukra-
ine Foreign Minister, Dmitri Z.
Manuilsky. He said that human
rights violations were to be looked
for "in the Latin American
countries, in Australia, in the
countries that threaten the atom
bomb war, and in the countries
that have Lynch law and Jim
Crow." He said human rights are
violated every day in the United
States.

He charged that the accusation
by the United States and Britain
against the three countries he de-
fended were "gross fabrications
and slanders."

Australia One Accuser

Australia was another accuser.
Latin American nations, strongly
Roman Catholic, gave powerful
support to the charges.

The Soviet Union, the Ukraine,
Poland, Czechoslovakia and White
Russia voted solidly against it.

Seven countries abstained on
the final vote. They were Israel,
Pakistan, India, Yugoslavia, Ye-
men, Saudi Arabia and Afghanis-
tan.

Yugoslavia, one-time Soviet
block member and now a bitter
enemy of the entire Cominform
group, announced at the outset
that it would abstain because it
considered the three accused
countries guilty of other peace

Three Years
In Prison For
Harry Murphy

Judge Duncan Says
Case Most Fantastic
In His Memory

ST. JOSEPH, Mo., Oct. 22—(AP)—Harry J. Murphy whose operations as a machinery dealer led to his indictment on mail fraud charges Friday was sentenced to serve three years in a federal penitentiary.

The sentence was imposed by Federal Judge Richard M. Duncan who said the case of the 37-year-old Tarkio, Mo., business man was the most fantastic in his memory.

He referred to Murphy's activities as "Ponzi-like" and said the defendant in his manipulations had "demonstrated his lust for business power."

The "Tarkio Tornado" Murphy, known as the "Tarkio Tornado" before his booming empire crashed in the summer of 1947, had pleaded guilty to 41 counts of using the mails to defraud. They were based on Murphy's acceptance of deposits for farm machinery, which he was unable to deliver to customers in Kansas, Nebraska, Texas, Oklahoma and Colorado.

Judge Duncan sentenced him to serve three years on the first count and placed him on probation on the other 40. Execution of the sentence was deferred until Nov. 15 to allow Murphy to appear in a court case at Council Bluffs, Ia.

Government attorneys said he would be eligible to apply for parole in little more than a year.

Murphy became a man of affairs in the northwest Missouri community of Tarkio during the war. With a few years he was operating an implement business, a food locker, a truck line, a large farm and was dealing in corn and hogs. He used two airplanes in his business.

During the spring of 1947 wheat farmers received word that Murphy could get them hard-to-get harvesting machinery. They mailed and brought deposits to him. One Kansas farmer said he left \$144,000 with the Tarkio man.

Murphy's Empire Collapsed
Came the harvest with no combines from Tarkio. Murphy's empire began to collapse under the claims of creditors. The claims amounted to approximately \$1,000,000.

After Murphy's affairs moved through bankruptcy court, they went before a federal grand jury at Kansas City. This body, last April, indicted him on 62 counts of mail fraud and violations of the federal stolen property act in 21 other counts.

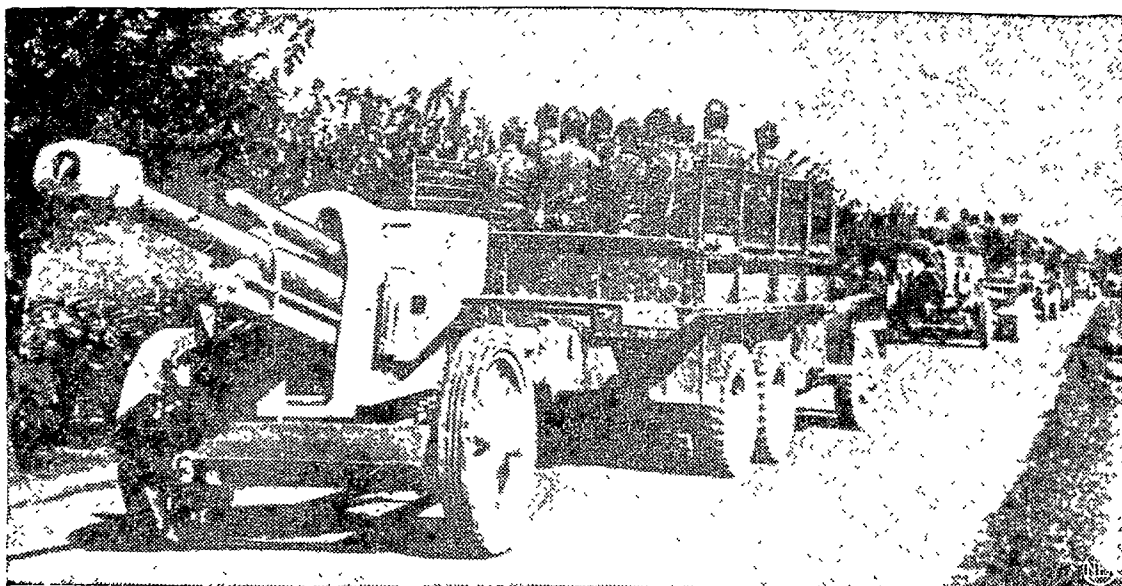

Murphy pleaded guilty to 41 of the mail fraud counts. The other counts were dismissed at the request of the government.

"Deep in my heart I am not guilty of any of the counts," Murphy said when he entered his plea here last month. He added that he pleaded guilty to save the government money and because he was not financially able to hire counsel.

Freddie E. McQuinn, one of those charged with murder, was convicted Oct. 8 by a circuit court jury and sentenced to serve 15 years.

His brother Earl, 23, pleaded guilty to a charge of grand larceny and burglary also are pending, is now being held in jail at Rock Port, Mo. Smith-Cotton Has
A Pep Assembly

Smith-Cotton was a hall of spirit (not learning) Friday. All day long there was an air of pep in the school which was climaxed by the assembly, which was given by the "L" club.

The assembly was opened by the student council president, Bill Franklin, who presented the Activity queen, Miss Dorothy Jean Anderson, and her attendants, Miss Donna Robinson and Miss Nancy McAtee.

Then the program was turned over to Don Dowdy, president of the "L" club who in turn introduced the two speakers of the day. They were: Gerhardt "Gene" Lankenau, Jaeger and Winifred "Ralph Walker" Bell. These "famous scientists" gave the formula for victory for the Smith-Cotton Tigers, which was made up of the boys on the team.

The experiment resulted in a fire and smoke which symbolized that the team also would be a success. Then a diapered baby, Bob Hall, representing a Kewpie came on the stage later he was shot and carried off by a funeral company.

After this part of nonsense was completed one of the boys tore down a sign and behind it was another sign telling of the excellence of the "L" club for the benefit of the Spiz club who is its closest rival.

After this portion of the assembly was completed Frank Coffman Jr., made a presentation to Coach Ralph Dow of new game jackets for the boys on the team, from the "S" club. Coach Dow accepted this as a great tribute

Weeps at Inquest

The jury found the death to be "accidental and homicidal" and recommended that Richard be held for further questioning. (AP WIREPHOTO)

Heart Breaking Day
For a 4-H Club Girl

KANSAS CITY, Oct. 22—(AP)—This was a heart breaking day for a 10-year-old girl at the American Royal Livestock show.

Tears came to the eyes of Shirley Miller, Lee's Summit, Mo., as she led her ponderous hereford steer, named Timmy, into the auction ring.

She had fed and groomed Timmy in a 4-H club project. She brought him to the American Royal. He placed sixth in the 4-H club steer competition.

Timmy was sold for \$400, but it was not enough to console Shirley.

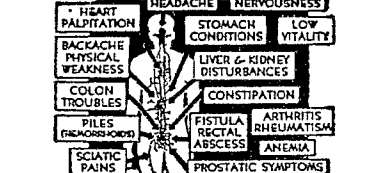

"I like Timmy better than money," she said. "I'm going to miss him awful."

First Degree Murder
Charge Filed Against
Arkansas Farmer

DES ARC, Ark., Oct. 22—(AP)—Charges of first degree murder have been filed against Lawrence "Gip" Colvin, 70, Prairie county farmer, in the fatal shooting of his youthful daughter and her husband Friday.

Sheriff E. O. Hamilton said he filed the charges with Justice of the Peace J. B. Garth in Des Arc this afternoon.

Tried To Force Door
Hamilton said Colvin told him he shot the 16-year-old girl, Ester Colvin Dunn, and her husband, Robert Dunn, 24, as they tried to force their way into his home near here about 3 a. m. today.

The sheriff said Colvin related this story:

The young couple had been living with him about a month, but because to some differences, he had asked them to leave. They returned to the house early today but he refused to admit them. They then began battering down the door. He shot his daughter with a .22 caliber rifle. As she slumped in the door, he shot her husband who staggered into a bedroom and collapsed.

S. S. Benefits to 1,296 in This Area

Scott Webber, manager of the Sedalia Social Security office, announces that 1,296 people were receiving Old Age and Survivors Insurance at the rate of \$25.205 per month in the nine counties served by the Sedalia office on June 30, 1949.

In Pettis county there were 375 beneficiaries receiving \$6,171 per month, in the following categories: Retired workers over 65 years of age: 183 receiving \$3,715.

Wives (over 65) of retired workers: 65 receiving \$667.

Widows (over 65) of deceased workers: 29 receiving \$521.

Widows (under 65) with dependent children of deceased workers in their care: 19 receiving \$340.

Children (under 18) of retired or deceased workers: 78 receiving \$912.

Dependent parents (over 65) of deceased workers: 1 receiving \$16.

Some people still are losing benefit payments because of failure to file claims promptly, Webber said. In order to prevent some loss of benefits, a claim must be filed as quickly as possible when a worker past 65 is no longer employed on a job covered by Social Security, or immediately after a worker's death at any age. If more than three months elapses, the worker or his family loses money to which they were otherwise entitled.

Crossroads Comment

Have you noticed lately the increasing murmur, "I'm getting fed up?" Which probably means something is going to bust out at the seams if the leaders of the twin monopolies—industry, and labor—don't soon adjust their differences. The in-between guys still carry a sizable ballot shillalah.

A Springfield, Ill., hotel has on its breakfast menu: "The Pick Me Upper," "The Hurry Upper," "The Builder Upper," and "The Filler Upper."

Needless to say the upper you go, the upper you pay.

Traveling north by auto from Logansport, Ind., a week ago Saturday night about 9:45 o'clock, a group of Missourians thought they saw ahead wisps of fog in the clear sky. Gradually the fog became brighter and waves of subdued light became noticeable from the horizon to the zenith. Some one suggested it might be the Aurora Borealis, or northern lights.

The motorists stopped their car beside the highway and alighted to watch the phenomenon. It was indeed a beautiful and inspiring sight at its maximum intensity.

The last time I saw the northern lights was a December night in Salisbury, Missouri 32 years ago.

To a group of young people I mentioned seeing the Aurora Borealis. They wanted to know what was an Aurora Borealis. I don't see how a student can get through high school without having had this explained to them.

An Aurora Borealis is something like this—explained in Webster's—The light usually appears in streamers ascending, often in a fan shape, from a dusky line or bank a few degrees above the northern horizon; when reaching south beyond the zenith, it forms what is called the corona. Sometimes the light assumes a wavy appearance and a variety of colors. The luminous phenomenon is supposed to be of electrical origin.

One who has not traveled long distances by automobile in the past ten years becomes acutely aware of the change in courtesy along the road—at hotels, restaurants, filling stations and repair depots.

One man said he couldn't do a repair job because he already had too much work to do. When asked to suggest someone else to help the weary traveler he replied curtly: "I'm not advertising for my competitors."

This, and similar attitudes of service employees and even some employers, indicated hair-trigger tension and irritability certainly not apparent ten years ago.

Perhaps this mental attitude is stimulated by the times. The world and our own nation seems mighty jumpy these days with all its bickering and stubbornness—industry, labor, politicians, even the armed services.

What this country needs is a restoration of confidence in leadership. How can a world, too, that looks to this nation for leadership, become imbued with confidence when we ourselves lack it.

Unless an era of confidence comes, the rank and file will be candidates for the bug house.

The expression "earning your salt" is by no means a modern term, but has a deep-rooted heritage. The World Book Encyclopedia relates that salt was once so scarce and precious that it was used as money. Caesar's soldiers received a part of their salary in common salt. The word salary comes from the Latin word sal—meaning salt.

Wandering through the toy department of a big city store I once observed a boy similarly engaged. He wanted to buy something, but the more toys he saw the more indecisive he became about the purchase. He just couldn't make up his mind.

Some persons go through life that way. There are so many opportunities for so many careers they cannot quite make up their mind which one to choose. They spend years looking until they are in utter confusion. Finally they join the ranks of those who advocate that a benevolent government keep them from starving to death while they keep on looking.

English scientists have found germs 13,000 feet above the earth. Sick and tired of the behavior of their hosts, they're trying to get away from it all.

In the northern part of Russia and Siberia, where snows are heavy and lasting, some cows are equipped with glasses to prevent snow-blindness. Perhaps the Soviet politburo should try this remedy on themselves and they wouldn't be so blind to the world economic and religious facts of life.

Mosquitoes will drink sweetened water in preference to blood. So don't complain because the little nuisances prefer to bite you, else it be a telltale admission.

There are about 3000 railroad ties to the mile. The public wishes there were 3,001, the extra tie being one that would bind unions and management into peaceful association.

The Washington Merry-Go-Round

Chief Trouble With 81 st Congress Was Absenteeism

by Drew Pearson

WASHINGTON—As the debris of the 81st Congress is swept away and as relieved bureaucrats get back to work with no senators breathing down their necks, it can be truthfully said that Congress has accomplished far more than veteran capital observers every dreamed possible.

In face, the recent session probably passed more of Mr. Truman's Fair Deal program than FDR's congress passed of the New Deal program, with the exception of his first four years in office.

Chief blot on the 81st congress was that it failed to pass an old-age pension-social-security bill at a time when such passage could have helped settle the coal and steel strikes; and that it failed to pass aid-to-education at a time when the schools were desperately in need of help.

The fact that Congress failed to do this and bogged down toward the end was due largely to absenteeism.

Not all the pleading, cajoling and scolding of patient senate leader Scott Lucas could muster the votes—for the simple season that dozens of senators and scores of congressmen were out of town.

Absenteeism has become worse in recent years because of free junkets abroad on Army airplanes. In the old days, congressmen went home to mend their political fences. Now many travel abroad on "surveys." Usually it's a good idea for congressmen to get acquainted with conditions abroad—but not when their votes are needed in Washington.

During the closing weeks of Congress for instance, the following senators were "surveying" conditions in Europe:

Survey of Housing—Included Bricker of Ohio, Flanders of Vermont, Flear of Delaware and Sparkman of Alabama.

Survey of Europe generally—by the Senate Appropriations committee, including Chavez of New Mexico, McClelland of Arkansas, Robertson of Virginia and Stennis of Mississippi—though Stennis is not even a member of this committee.

Survey of Franco Spain—Undertaken by McCarran of Nevada, chairman of the Judiciary committee, who has nothing to do with foreign relations.

Survey of military establishments—by Tydings of Maryland, even though Secretary of Defense Johnson begged him to stay in Washington. (Friends said he had to go because he'd promised Mrs. Tydings.)

In addition, the following senators got tired and toward the closing days of Congress, packed up and went home: Butler of Nebraska, Reed of Kansas, Thye of Minnesota, Tobey of New Hampshire, Kefauver of Tennessee, Gillette of Iowa and Withers of Kentucky.

Truman Irked at Lesinski

President Truman confided his "keen disappointment" to Congressman Morgan Moulder of Missouri the other day over the shackling of federal-aid-to-education by Chairman John Lesinski and the House Labor committee.

Moulder, a strong champion of aid-to-education, predicted the House—like the Senate—would have passed a satisfactory compromise, probably providing free lunches and health care for parochial schools, if Lesinski had not bottled the bill up in committee.

"Of course, the issue could have been easily solved along those lines, commented the President, somewhat irritably. "I did all I could. I even had some of the committee members over for a conference and strongly encouraged action to relieve the school shortage."

"The fact that the committee refused to do its duty was no fault of mine. I can't dictate to the Congress."

Truman also revealed that he was considering a broad-scale plan for amortizing the mounting national debt, but didn't go into details. However, he promised to study a suggestion by Moulder that revenues from specific taxes—such as excise and excess profits levies—be diverted to retiring the federal debt.

Strange Roumanian

There is something peculiar about the way certain American diplomats and judicial experts have been hobnobbing with a Roumanian in New York who is the registered agent of one of Stalin's chief henchmen.

The Roumanian is Dr. Vespasian Palla who arrived in the U.S.A. with his own car and chauffeur, gives swank champagne parties on his Long Island estate, and is the official representative of Premier Anna Pauka, the lady communist who runs Roumania for Stalin.

Palla is a versatile gentleman, who once represented the Fascist Antonescu government, which declared war on the United States, and which slaughtered 300,000 Jews, sent many of their bodies to the I. G. Farben soap-factories. Palla served Fascist Antonescu as minister to Switzerland. Now he is minister without portfolio for the Communist Pauka government.

But the amazing thing is that despite this direct hook-up with the Russian-Roumanian Communists, Palla has ready access to American legal bigwigs and some diplomats. On April 29, at a dinner for the American Society of International Law, attended by Deputy Secretary of State Dean Rusk, diplomats and lawyers stood up and applauded when Palla was introduced.

Another amazing thing is that this mysterious gentleman is called upon for advice regarding the United Nations, though Roumania is not a member of the U. N. What information he sends back to Roumania is not known, nor would the FBI know, since he has access to the uncensored Roumanian diplomatic pouch.

Merry-Go-Round

General MacArthur has informed the state department that the Chinese Communists plan to set up a formal government for all China by November 15 . . . Governor Dewey has sent his personal press chief, Jim Haggerty, to master-mind John Foster Dulles' re-election to the Senate . . . Oklahoma utility interests are spreading rumors that liberal, young Congressman Tom Steed "hasn't paid attention to his job." Real fact is that Steed is one of the hardest workers in the House, seldom left his office before 9 or 10 P.M. . . . Secretary, Acheson has ordered his aides to begin drafting a peace treaty for Japan. The British, anxious to get General MacArthur out of Japan, exacted a promise from Acheson he'd have a peace treaty for Nippon within 90 days.

Music Modes

ON Monday nights for the past few weeks the members of the Sedalia Symphony orchestra and conductor Abe Rosenthal have been hard at work preparing the first concert program of the 1949-1950 season.

An interesting program with a variety of compositions ranging from Morton Gould's "Aremicana Suite" to Mozart's "Magic Flute" overture will be presented.

The writing of the "Magic Flute" overture was the result of Mozart's meeting and collaborating with Emanuel Schikaneder, a remarkable character who furnished the libretto for the opera. When Mozart met Schikaneder, who was known as a theatrical impresario, he was twenty-three and had achieved a good deal of success. First as a child prodigy and then as a talented, capable composer.

This Schikaneder was an actor, singer, producer, poet, and a theatre proprietor all rolled up into one. He was not a "Jack of all trades and master of none" for he made a commercial success out of all his ventures and was capable of running anything from a rodeo to a musical comedy.

Schikaneder was a good hearted, jovial person and enjoyed the better things of life such as good food and gay parties. It was probably at one of these parties of Schikaneder's that Mozart was approached and requested to write the music for Schikaneder's new opera. Mozart liking his good friend's hospitality and his wine, consented.

Mozart was a creator of extraordinary music and his ways of creating his music were equally astounding. He often thought out a complete composition and retained it in his memory for an unlimited length of time. Schikaneder knew of Mozart's great skill. He also knew that he wouldn't put his works on paper until he was compelled to do so; he therefore took a very wise precaution of lodging Mozart in a cottage near the theatre, where he could see to it that there would be progress each day.

The bulk of the music to the "Magic Flute" was written in May and June of 1791. The overture, however, was retained in his memory the entire summer and was not put on paper until two days before the premier performance.

Mozart was a great composer but an unhappy man and not too well off as far as money was concerned. Through all his unhappiness he did have a sense of humor. When he was a court composer to Joseph II, Emperor of Austria, he was commissioned to write some dance music and he soon became discontent with nothing better to do. In fact he became so disgusted he wrote in the margin of his income tax return . . . "Too much for what I do; too little for what I could do."

He wrote his greatest and last three symphonies in the summer of 1788 within a period of six and one-half weeks. Three years later he died a pauper at the age of thirty-five from typhus . . . though he believed he was poisoned.

Schikaneder, a man who if he was alive in this age, would have been a contemporary and a competitor for P. T. Barnum, died insane in 1812.

That's the end of the lives of two great men, but the opera and all its works, including the overture, will live forever. A just tribute.

Monday night will be the first concert of the season for the Sedalia Symphony orchestra. Miss Vera Claire McNary marimbist of extraordinary ability will be the guest artist. This is a must for those who appreciate good music.

Wife Shouldn't Tell Marriage Problems to a 'Best Friend'

Should a wife discuss her marriage with her "best friend?"

That is the question raised by a letter from a young husband who writes me that every time he and his wife have an argument she tells her "best friend" all about it and asks for her advice.

The husband resents having a third person know their troubles. And he has a perfect right to resent it.

In fact, he ought to put a stop to it immediately. Lots of young wives, because they got in the habit of confiding in a best friend during their dating years, keep right on talking over their private lives after they are married.

But if a girl is old enough to be a wife, she is old enough to stop such girlish confidences.

As a wife she should keep her own counsel and no matter what goes wrong with her marriage she

Another Bomb That Needs to be Controlled

should put up a good front before her friends.

Her marriage is her business and her husband's—and nobody else's—and it is up to her to keep it that way.

Downright Unfair to Hubby

The wife who discusses her marriage problems with a friend or tells a friend all her husband's faults is actually being disloyal to her marriage.

If a mar is married to a girl who has never stopped to think of it in that light—she ought to set her straight pronto.

After all, he has a right to be able to feel that what happens in their marriage is a private affair and that his wife would no more discuss the marriage with her friends or family than he would discuss it with the boys at the office.

There's another angle to this situation that is also important. And that is that today's best friend may be tomorrow's bitterest enemy. It happens all the time—and then a woman always regrets that she has given another woman too close a look at her marriage.

High Blood Pressure is Being Investigated Along Diet Lines

BY EDWIN P. JORDAN, M. D.
Written for NEA Service

The battle against high blood pressure or hypertension is going on all the time. Of course, it would be ideal if hypertension could be prevented. This, however, is not immediately in sight. Treatment of high blood pressure and measures aimed at keeping slightly high blood pressure from getting worse are about all that can be expected in the near future.

Among the measures of treatment which are now receiving concentrated study in many parts of the country is treatment by diet. Actually, it was shown about the beginning of this century that a diet which contained small amounts of salt was helpful in many cases of high blood pressure. Progress in his direction was slow for many years, but recently many research workers have made additional studies on the effect of diet in both animals and people.

One group of workers has found that the blood pressure of rats with experimentally produced hypertension could be lowered when they were given diets which were low in one part of salt. (The chemical name for salt is sodium chloride and the portion which they took out was the sodium.) They tried this treatment also in a small group of patients and found that the blood pressure was lowered in several.

Studies Seem Valid

Such studies as these may explain the good results which have been reported for some of the special diets for high blood pressure, such as the rice diet. It seems likely that when good results have actually occurred from such special diets it may be because of the low amount of protein and low amount of sodium or salt which they contain.

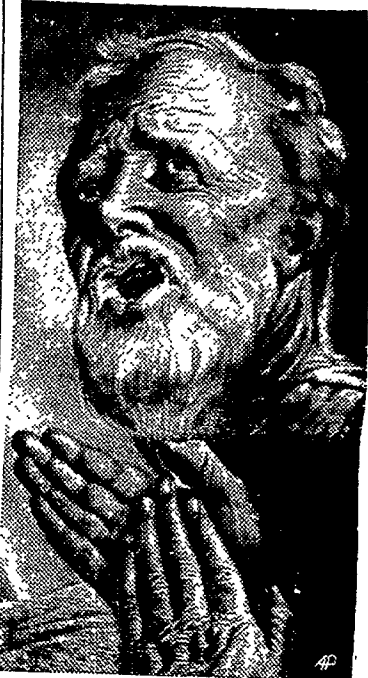

The victim of high blood pressure cannot expect too much from diet treatment alone. Nevertheless, work on this problem is going forward constantly and probably the future will bring forth dietary treatments for hypertension even better than those which are known today.

ABRAHAM

(Copyright 1949 by Oxford University Press, Inc.)

And the Lord appeared to Abram and said unto him, I am the Almighty God; walk before me, and be thou perfect. And I will make my covenant between me and thee, and will multiply thee exceedingly. Neither shall they name any more be called Abram, but thy name shall be Abraham; for a father of many nations have I made thee.

And God said unto Abraham, As for Sarai thy wife, thou shalt not call her name Isaac; but Sarah shall her name be. And I will bless her, and give thee a son also of her; yea, kings of people shall be of her. Then Abraham fell upon his face, and laughed, and said in his heart, Shall a child be born unto him that is an hundred years old? and shall Sarah, that is ninety years old, bear? . . . And God said, Sarah thy wife shall bear thee a son indeed; and thou shalt call his name Isaac; and I will establish my covenant with him for an everlasting covenant, and with his seed after him . . .

And Abraham called the name of his son whom Sarah bare to him, Isaac. And Abraham circumcised his son Isaac being eight days old, as God had commanded him. And the child grew, and was weaned; and Abraham made a great feast the same day that Isaac was weaned.

And it came to pass after these things, that God did tempt Abraham. And he said, Take now thine only son Isaac, whom thou lovest, and get thee into the land of Moriah; and offer him there for a burnt offering upon one of the mountains which I will tell thee of.

And Abraham rose up early in the morning, and saddled his ass, and took two of his young men with him, and Isaac his son, and went into the place of which God had told him. Then on the third day Abraham lifted up his eyes, and saw the place afar off. And Abraham said unto his young men, Abide ye here with the ass; and I and the lad will go yonder and worship, and come again to you. And Abraham took the wood of the burnt offering, and laid it upon Isaac his son; and he took the fire in his hand, and a knife; and they went both of them together. And Isaac spake unto Abraham his father, and said, My father; and he said, Here am I, my son. And he said, Behold

the fire and the wood; but where is the lamb for a burnt offering? And Abraham said, My son, God will provide himself a lamb for a burnt offering: so they went both of them together. And they came to the place which God had told him of; and Abraham built an altar there, and laid the wood in order, and bound Isaac his son, and laid him on the altar upon the wood. And Abraham stretched forth his hand, and took the knife to slay his son. And the angel of the Lord called unto him out of heaven, and said, Abraham, Abraham; and he said, Here am I. And he said, Lay not thine hand upon the lad, neither do thou anything unto him: for now I know that thou fearest God, seeing thou hast not withheld thy son, thine only son from me. And Abraham lifted up his eyes, and beheld behind him a ram caught in a thicket by his horns; and Abraham went up and took the ram, and offered him up for a burnt offering in the stead of his son.

And the angel of the Lord called unto Abraham out of heaven the second time, and said, By myself have I sworn, saith the Lord, for because thou hast done this thing, and hast not withheld thy son, thine only son: That in blessing I will bless thee, and in multiplying I will multiply thy seed as the stars of the heaven, and as the sand which is upon the sea shore; and thy seed shall possess the gate of his enemies; and in the earth be blessed, because thou hast obeyed my voice. . .

QUESTION: Is timidity a nervous condition or a mental ailment? Is there any medical remedy for timidity?

ANSWER: So far as I know, timidity is a state of mind. Practically all people are more or less timid sometimes. There is no medical remedy, but many people have largely conquered the serious aspects of timidity merely by using their will power.

Someone to Love

By IRENE LONNEN ERNHART Copyright, 1949, NEA SERVICE, INC.

THE STORY: Jenny has obtained a divorce from Tod Duncan and has received custody of their twin sons, but the divorce will not become final for six months. Jenny looks back on the two unhappy years with Tod, who was unable to forget his Conover, to whom he will be married when the divorce is final. There had been financial worries, disillusionment and misery. But now she hoped that Rick Morris, who is in love with her, will take her place in his heart. Meanwhile, Tod has quarreled with Liz, who says that he has no talent and the only way he landed a job with her father's firm was through her.

XXX

LIZ had some ideas for filling up those six months she had to wait before her marriage to Tod. First, a trip to Sunrise Valley with some friends. "You'll just adore it, Tod."

"But..." "It's all right, Tod," Mr. Conover boomed smoothly. "You're practically one of the family. If Liz thinks you need a vacation from the office, off you go!"

For the rest of the day Jenny's small thin face haunted him. He had to keep pushing it out of his mind. "That's all finished," he kept telling himself grimly. "It was never right and we both knew it and now it's all over. And neither of us cares."

Jenny had let Rick persuade her to take the rest of the day off. She couldn't bear to be around people, to feel Nina's commiserating eyes and catch the whispers of the girls at the shop.

"Let's drive out into the country and find some nice place to have lunch," Rick suggested. "Just the two of us."

It sounded good. With Rick she didn't have to pretend. She phoned Nina from a drug-store booth and said she wouldn't be back. It was soothing just to lean her head against the seat and watch the pavement slide swiftly beneath the car as Rick drove.

Rick pulled the car into the gravel drive of a small log cabin lodge. A red neon sign out front

kept blinking "Eat." He put his arm around her in a comradely way. "Don't torture yourself, Jenny. It's no good."

She tried to return his smile. But there was a lump in her throat all at once. "I'm not torturing myself, but I can't help thinking about it."

"Look, hon," Rick said. "You lay awake nights before the divorce worrying yourself sick about it. You've lost weight. But now it's all over and settled and you've got to brace up like a good girl and get back your sense of humor and start building something new. Right?"

She nodded, her eyes burning. "Yes, Rick?" "Their eyes hung for an instant. "Will you marry me, when that six months is up?"

She stared at him. Something inside her whispered to tell him yes now and have it settled, something to build on, something to shut out all the unhappiness of the past weeks, and this morning in that courtroom.

HE took her hand, and his arm encircling her shoulder tightened a little. "We'll have such a wonderful life together, Jenny, the four of us. I'll make everything up to you. I'd do anything for you. You know that, don't you?"

She nodded again, mutely. She hated to hurt him. "I'd like to, Rick, believe me. But..."

He saw her hesitation. "Well," he said slowly, "just don't say no. That will be enough. Maybe I should have waited to ask you—until you'd eaten—or maybe I should have been more subtle about it—dined you and—wined you!" He laughed—and her laughter mingling suddenly with his was a welcome surprise to them both.

For such a beginning as the day had had, it didn't turn out badly. They went to a movie that afternoon and came home to find that Mrs. Drew had prepared an extra special dinner, with all Jenny's

favorite dishes. And Rick helped her bathe the twins and put them to bed. Seeing him struggling to get Dale's squirming little body into the new pink sleepers, Jenny felt a tug of regret that she hadn't given him "yes" for an answer this afternoon.

Tod had never bathed one of the twins, or helped get them to bed. On the other hand, as long as she had known Rick, he had been like that—always wanting to help her with the children. He was crazy about kids. Life with Rick would really be wonderful. How silly she was not to give in and start planning!

But something held her back. She couldn't quite take the step.

OCTOBER came, warm hazy days, with leaves from the maples drifting golden in the sunlight. Jenny took a Saturday off from the shop and raked leaves with Rick and the twins. The children each had a red wheelbarrow their father had brought them on his last visit. He had not come out since the trial. Jenny wondered if he had gotten the impression he wasn't to see the children any more. She had thought of phoning him, but then realizing that subconsciously there was another motive for the idea, abandoned it. Maybe Tod didn't care to see the children.

November now. How slowly the weeks went by, and how aimlessly, Jenny thought. Would it always be like this? Would she always feel inanimate, as though she were a figure in a dream, moving in an unreal world where nothing really mattered?

If she could only bring herself to tell Rick she would marry him, when the six months were up, there'd be something to look forward to.

December brought the usual rush of Christmas business to the shop. And there was a lot to do there, the holiday windows to plan, extra help to be interviewed and hired. She and Nina were both elated at the business they were doing. Jenny was trying to shop for the twins too, and plan their Christmas.

And then one day Tod phoned. (To Be Continued)

Clark Gable returns to the type screen role in which his fans like him best in "Any Number Can Play," showing today through Tuesday at the Fox Theatre. Non-Communist Oaths Are Filed

WASHINGTON, Oct. 22—(P)—The left-wing United Electrical Workers, biggest CIO holdout against Taft-Hartley Act rules, gave in today and filed non-Communist oaths from its officers.

The affidavits are required by the labor law before a union can have access to National Labor Relations Board machinery for such things as collective bargaining elections. They must state that the union officers are not Communists and are not sympathetic to Communism.

The U. E. has been described in hearings of the House Un-American Activities committee as a hotbed of Communist activity.

Officers who submitted the anti-Red oaths included President Albert J. Fitzgerald, secretary-treasurer Julius Emspak, and director of organization James J. Matles. The ten vice presidents also signed.

The NLRB has no discretion about accepting the affidavits. The authenticity of the oaths is a matter for the Justice Department to check on.

John Percival, baritone, is soloist with "The Choraliers" at 1 o'clock this afternoon over KMBC. "I Love Life" and "Brown October Ale" are his solo selections, and the male choir has chosen some of your old favorites, including "Daybreak" and "Buckle Down Winsome." Eugene Lowell conducts, and Frank Knight is host.

Kansas Citizens will be heard as contestants tomorrow evening at 7 o'clock on the "Professor Quiz" program. We know you'll want to tune in to this original quiz program, and hear how Kansas City audiences react to the questions directed at them by the original "Professor Quiz."

Linda's First Love, heard Monday through Friday at 2:30 p. m. over KMBC is a heart-warming story that you'll all want to hear. In addition to this exciting program, there's other good news of interest to listeners on this program, so we hope you'll tune in.

Sam Molen's Memory Lane of Sports, a 10-minute dramatic sports program, is now heard each Sunday evening at 5:35 p. m. Sam draws on his great storehouse of sports anecdotes to dramatize some of the thrilling and exciting sports yarns of a bygone era. His main story this afternoon will be about "The Only Time John McGraw ever Apologized." Hope you'll be listening to this new series.

Hollywood Theatre, heard over KMBC at 7 p. m. each Tuesday evening, this week presents Barbara Britton in "Star Bright," a story about the trials and tribulations of achieving stardom.

The KMBC-KFRM Schoolhouse Series is again in full swing, and will be heard at 1:30 weekdays over KMBC. The Monday program is devoted to the "Art Lesson." Tuesday's program is entitled "Fun With Facts," and on Wednesday's Caroline Ellis presents "The Magic Book." The Thursday and Friday programs will begin soon, and "Music Time" will be scheduled each Thursday, and on Friday the program will be "Youth Looks Ahead." Teachers and educators have lauded this series, and we'd like to suggest that you tune in, and enjoy the "Schoolhouse Series."

And speaking of tonight, don't forget that the Horace Heidt show will be broadcast from Municipal Auditorium this evening. If you aren't planning to attend in person, we'd like to invite you to tune in the program at 8:30 over KMBC.

Economy of construction is possible with this plan by virtue of its rectangular design. The house can be built with or without a basement. Garage, breezeway and outdoor barbecue fireplace can be added later. An extra large living room is a feature. This is Plan #4622 by L. A. Rauscher, 144 Himrod street, Brooklyn 21, N. Y. It covers 988 square feet and has a low roof pitch keeping cubage at a minimum.

Somalia Gets Anti-British Propaganda

MOGADISCIO, Somalia—(P)—Anti-British propaganda—apparently coming from the United States—is widely spread in the former Italian colony of Somalia. An unidentified wireless station that purports to be North American spreads daily news bulletins in Somalia, inciting the populace to revolt against their present rulers. Hundreds of copies of Italian written pamphlets with a "printed in the U. S." label have been mailed to leaders of Somali tribes. Somali Chieftain Abdullahi Issa, who signed the pamphlet, thanks Allah "for having succeeded in destroying the hateful and venomous project submitted to the U. N. General Assembly by Great Britain, famous for its imperialistic and egotistic projects. "This project suggested that Somalia be returned to Italy."
